Assistant Manager

Galaxy Internet Services. Ltd

Feb - 2020 - Oct - 2022

- Managed daily operations of Wi-Fi service delivery and Oversaw technical support operations
- Improved service efficiency and customer satisfaction

PROJECT

Book-Store App | JS, React.js, Redux, MongoDB, Firebase

Dec 2023 - Aug 2024

- **Developed a Full Stack Bookstore App:** Designed and implemented a responsive, user-friendly online bookstore, integrating frontend and backend technologies to support a seamless user experience.
- **Backend and Database Management:** Built a custom API for efficient data handling and optimized a database structure for fast retrieval and secure storage of user, book, and transaction data.
- **Secure User Authentication:** Integrated secure user login and role-based access control to protect user information and manage admin functionalities effectively.
- **Deployment and Maintenance:** Deployed the app on a cloud platform, enabling real-time access and ensuring system scalability and performance.

3D Portfolio | JS, React.js, Tailwind, Three.js, Email.js

Jan 2024 - March 2024

- **Built an Interactive 3D Portfolio:** Designed a cutting-edge 3D portfolio using Three.js, showcasing projects in a visually immersive and interactive format to enhance user engagement.
- **Utilized Three.js for Realistic Rendering:** Leveraged the Three.js library to create dynamic 3D elements with realistic lighting, textures, and animations, providing a unique browsing experience for viewers
